CS 321 HUMAN-COMPUTER INTERACTION

Design Project:

eFolder

"Keeping tomorrow's world leaders organized today."

Project Milestone #1:

1. Exchange contact information with your teammates
2. Create a standard-open ended interview
3. Schedule interviews
4. For each interview meet as a team, run an interpretation session to create work models
5. Once all the work models are complete the team will meet to consolidate the models.

What to hand-in
- One copy of your standard-opened interview questions.
- Field Notes for each interview
- Work models for each interview
- Consolidated models: flow, sequence, & artifact
- Affinity Diagram

Notes:
- Videotapes will be collected at the final milestone (you must turn one in to receive a project grade).
